CSTI's **Introduction to Emergency Management: Earthquake** program is the core course in the CSTI emergency management curriculum. This training program introduces participants to key emergency management principles and practices using the complex natural disaster of an earthquake. During the week of training, participants will engage in a progressive series of exercises as you plan for a response to a catastrophic earthquake. The culminating event is a functional exercise including the activation of a municipal Emergency Operations Center as a member of an emergency management team. *The Introduction to Emergency Management: Earthquake course is one of the required courses for individuals seeking to complete the California Emergency Management Agency's **Emergency Management Specialist Training Certificate Program**.*

Key Topics Include:

- Seismological and Geological Considerations
- Standardized Emergency Management
- System (SEMS)
- First Responder Issues
- Action Planning
- Emergency Response Workshops
- Information Technologies for Earthquakes
- Mutual Aid
- Emergency Public Information
- EOC Organization and Functions
- Emergency Management Exercising
- Damage Assessment
- Volunteer Services
